

Wringer®

The Indoor Air Quality Solution

- 100% outdoor air conditioner and dehumidifier, 500 CFM to 40,000 CFM
- Free precooling
- Supply air dewpoint down to 45°F
- Humidity control
- Space pressurization control option
- Free reheat
- Helps eliminate IAQ problems including mold, mildew and fungus
- Solves part load problems — standard equipment rarely controls humidity at part load
- Rugged two-inch double wall casing
- All welded stainless steel floor and drain pan
- Heavy structural steel base
- Internal spring isolated airfoil plenum fans
- Reduces refrigeration requirements by 30% or more
- Permits the use of economical, high-efficiency terminal equipment, i.e. PTAC, VAV, RTU, unit ventilator
- Heavy-duty construction for long service life
